

LAN-OPTIC

DIN skinne splidse modul
12 x SC Simplex modul unloaded m. kassette

Anvendelse

Anvendes til at understøtte terminering eller fusionssplejsning af fibre.
Kabelindgange med PG forskrunding gør det muligt at aflaste kablet.

Specifikation

Materiale: ABS-plast

Farve: Hvid

Størrelse: B141,3xD151,1xH35mm

Fiber kapacitet: 12 SC Simplex /
12 LC Duplex

Pakning: 1 stk.

Varenr.: 234112
EANnr.: 5706683027246

LAN-OPTIC

DIN MOUNTABLE BREAKOUT DISTRIBUTION BOX

The DIN-rail mountable breakout distribution box is used with various types of optical fibre systems and is especially suitable for mini-network terminal distribution – connecting optical cables, patchcords and pigtails.

FEATURES

- Box made of lightweight & compact ABS material
- Adaptor plate made of cold rolled steel
- For up to 12 SC simplex or 12 LC duplex adapters
- DIN guide rail is easy to install on the rack panels in a cabinet
- ROHS, REACH & SvHC materials compliant

APPLICATIONS

- Telecommunications subscriber loops
- Fibre to the Home (FTTH)
- LAN/WAN
- CCTV
